## Day 3 Monday 4 May 2026 White Cliffs

### Breakfast, Lunch, Dinner

In the late 1800s, the great Cobar Copper Mine was Australia's leading producer of copper. Back then the mine had more than 2,000 employees, huge smelters and a 64-metre chimney stack. Remains of the smelter foundations are visible at the **Great Cobar Museum**, where we visit on arrival and enjoy the '**Curator Talk**', a guided talk of the Museum. We take a journey through Cobar's history from the time of the local Aboriginal Ngiyampaa people to the mining era. Marvel at historic artefacts and outstanding collection of exhibits which date from the early 1870s to the present day. For incredible views of an open-cut mine and the town of Cobar, we head to the viewing platform at Fort Bourke Hill Lookout. Fort Bourke Hill is the historic site of the New Cobar Gold Mine, Cobar's first gold mine. Next, we travel on the Barrier Highway to **Wilcannia**, which was once known as Queen City of the West. We stop for lunch at the **Wilcannia Café 2836** before heading off the main highway to our destination of White Cliffs. On arrival, check into the unique underground hotel. Dinner in the **Underground Motel**, White Cliffs NOTE: Share bathrooms at the Underground Motel

## Day 4 Tuesday 5 May 2026 Broken Hill

### Breakfast, Lunch, Dinner

The White Cliffs Opal Fields were the first commercial fields in New South Wales. The first lease was granted in 1890 and by 1899 the fields were supporting 4500 people. Today over 50,000 mine shafts dot the landscape around Whitecliffs – a legacy of the relentless search for opal. In fact, after quite a number of years with very little success, a major opal find was confirmed in the area in September 2000. No doubt the digging will continue! Our **local guide** will join us and take us to see the **sights of the town and pioneer opal fields**. Next, we enjoy lunch at the **Red Earth Opal Cafe** and view the beautiful opals before we experience a **mine tour and demonstrate** about the day in the life of a miner. Afterwards, we travel to Broken Hill. After checking into our hotel, we freshen up before dinner.

### **Day 5 Wednesday 6 May 2026 Broken Hill**

### **Breakfast, Lunch, Dinner**

Broken Hill embodies the essence of the Australian outback. With its captivating charm, this living breathing time capsule blends a bygone era of mining prosperity with the cultural hub it proudly boasts today. Joined by a **knowledgeable local expert**, we'll be guided through this remarkable town revealing its hidden treasures. We begin with the awe-inspiring **Line of Lode**, a monumental strip where silver, lead and zinc deposits once reigned supreme. Towering above us this imposing structure stands as a testament to the town's mining heritage. At the top we find the Miners Memorial, a poignant tribute to those who helped support the pursuit of progress. One of Broken Hill's iconic artist is Pro Hart and a visit to the **Pro Hart Gallery** is a must. From drawing and sketching to the famed landscapes and narrative paintings, Pro Hart was an artist across many forms. Be amazed by the lush colours, sense of space and spiritual quality of the outback captured in ways only few artists are able to emulate. Our next visit to the Sulphide Street Railway and Historical Museum is sure to please. This is actually four museums in one - the **Broken Hill Migrant Museum**, the Hospital Museum, the Ron Carter Transport Pavilion and the Triple Chance Mineral Collection. It is also home to a range of railway attractions, including the Silver City Comet and a selection of restored gems from the Silverton Tramway Company. Next, we enjoy our lunch at the **Palace Hotel**, which was used for the bar scenes in the movie 'Priscilla - Queen of the Desert.' We also enjoy a brief tour of the hotel before visiting the iconic **Royal Flying Doctor Service Visitors** Centre located at Broken Hill Airport. Enjoy a guided tour of this fascinating facility and see for ourselves a remarkable organization's contribution to life in the vast outback, experience first-hand a real-life Flying Doctorbase in action, view historical photos and equipment including a wireless pedal.

### **Day 6 Thursday 7 May 2026 Broken Hill - Silverton**

### **Breakfast, Lunch, Dinner**

Following breakfast, we travel out of Broken Hill to visit the historic **Daydream Silver Mine**. History will come alive as you drive along the road through the Appollyon Valley thinking "how did they find this mine?". Then coming over the hill we view the magnificent smelter built by the Daydream Mining Association and used by Broken Hill. A **guided tour** will welcome us to the mine site including an **underground tour**, learning all about the smelter, township, how & who found the mine plus stories about the Cornish Miners and their families and the area in general. Greeted by mesmerising displays, the minerals, gems and intriguing artefacts that all shed light on the rich mining history of Broken Hill. A magnet for production crews from across the globe, we are off to explore the intriguing town of **Silverton**. The virtual ghost town has attracted film crews such as Mad Max 2 and Priscilla Queen of the Desert with commercials being shot here often. Lunch is at the **Silverton Pub** where we might encounter the **Silverton donkeys**. These friendly, albeit mischievous, creatures have become a fixture in the town and are very happy to say hello to its visitors. At the **Silverton Gaol** and **Historical Museum** echoes of the past reverberate through the rooms as we uncover the tales of its history. Not far from Silverton is the **Mundi Mundi Lookout** perched on the edge of the vast plains that stretch across the wide heart of the outback. Extend your gaze into the seemingly endless horizon, where the curvature of the earth is visible on a clear day. On our return to town, we rest up before our final stop leads us to the captivating **Living Desert Sculptures**. for nibbles and champaign taking in the **sunset skyline** with thirteen magnificent **sandstone sculptures** stand proudly atop the hill, we return to the hotel for a late dinner.

To the south of "The Hill" is **Menindee Lake**, the historic town of **Menindee** and the **Kinchega National Park**. The serenity of the lakes is disturbed only by the multitudes of waterbirds and the wanderings of red kangaroos and emus. We have arranged to join the **River Lady** for a one-hour cruise on the Menindee Lake and then enjoy lunch at **Maidens Hotel**. It was here Burke and Wills camped in 1860, prior to their ill-fated trip to Cooper Creek and the Gulf of Carpentaria.
